

A man in a blue shirt and tie is celebrating with his arms raised in front of a laptop. The background shows a modern building with large windows and a billboard. The AIRCEL logo is in the top right corner.

AIRCEL

Premium Internet Service

Premium Internet Service

Ensuring quality bandwidth service at all times!

Service Features

High Availability

Aircel offers Premium Internet Service which guarantees network uptime as high as 99.9%, thus ensuring that your business runs at ease.

Greater Reach

Premium Internet Service is delivered using multiple media options to reach your business establishment.

We enable the services using cutting edge FDD technology in Wimax which allows full duplex data transfer in the licensed 3.3 Ghz frequency band.

Other options to offer high speed bandwidths are over Point to Point radio and Fiber which is brought straight upto your business establishment.

“With over 70 Mini and Micro PoPs across the country, Aircel Business Solutions ensure provisioning of premium internet needs to suit your business requirements.”

Quick Deployment

Aircel offers deployment of the Premium Internet Service setup in less than 10 days when offered over Wimax or Point to Point Radio.

Multiple Speed Options

Premium Internet Services are offered from 256 kbps and beyond for you to choose from.

Bundled CPE

Aircel offers you the option to bundle routers of your choice with your internet service. You can evaluate outright purchase or an amortized model to suit your need.

Great Price

Aircel offers the best price in the industry for Premium Internet Service without compromising on quality.
